## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on May 21, 2004 was considered by the examiner.

### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20 February 2007 has been entered.

### ***Response to Arguments***

3. Claim objections are withdrawn after considering arguments presented by the Applicant in the remarks submitted 20 February 2007.

### ***Allowable Subject Matter***

4. Claims 1-8, and 10-21 are allowed.

The primary reasons for allowance of claims 1, 8, 14, and 19 are in the instant application rest at least in the combination with the inclusion of the limitation that "A method for nested control flow, the method comprising...reading the context bit based on the plurality of extra bits, wherein the context bit is independent of the first instruction having a plurality of extra bits." The prior art of record neither anticipates nor renders obvious the above-recited combination.

Because claims 2-7, 10-13, 15-18, 20, and 21 depend directly or indirectly on any of the claims 1, 8, 14, and 19, these claims are considered allowable for at least the same reasons noted above with respect to claims 1, 8, 14, and 19.
